Home style

Una casa accogliente, con il giusto mix di personalità e praticità, di funzionalità e calore mediterraneo: è la casa Stefanplast. Ceste, portabiancheria, bidoncini portarifiuti, accessori per il contenimento e molto altro: un universo di costante ricerca e attenzione ai bisogni più attuali, nel quale l'evoluzione della materia, la sperimentazione e la continua crescita stilistica permettono a Stefanplast di inventare sempre nuovi linguaggi estetici. Cromie soft, vivaci ed energizzanti e una cura estrema dei dettagli regalano il piacere del vivere quotidiano.

A cozy home, with a proper mix of personality and ease of use, functionality and Mediterranean warmth: this is Stefanplast home. Design, colore, vitalità spontanea e raffinatezza nello stile: impossibile non distinguersi con i prodotti Stefanplast. Attorno alla loro bellezza si costruisce un discorso di qualità e funzionalità, di soluzioni progettuali innovative, di cura dei particolari, di unicità intrinseche e profonde. Tre le collezioni: per il giardino, per la casa e per i piccoli animali. Tutte inimitabilmente italiane.

Since 1964

Stefanplast ha cinquant'anni di storia alle spalle. Il tempo ha certamente maturato in noi un'esperienza e una conoscenza profonda del materiale sorprendente che utilizziamo: la plastica. Oltre e contro il tempo, manteniamo da sempre viva la sfida di un rinnovamento continuo, la capacità ostinata di pensare avanti, immaginando e inventando nuove forme, prodotti diversi, interpretando e anticipando le esigenze di tutti i nostri clienti. Sul fronte delle idee e dell'innovazione, Stefanplast è simbolo di attualità da sempre.

Stefanplast has a fifty-year history behind. Time has certainly allowed us to build up a comprehensive knowledge of the amazing material we use: plastic. Beyond and against the times, we have always kept the challenge of continuous renovation alive, a tenacious ability to look ahead to the future, imagining and inventing new shapes, different products, interpreting and pre-empting the needs of our customers. In terms of ideas and innovation, Stefanplast has always been the symbol of contemporary styling.

Everyday quality

Ogni giorno un impegno costante nel miglioramento degli standard produttivi e dell'efficienza, per realizzare manufatti di qualità superiore e durevoli nel tempo. Ma a distinguerci è soprattutto la qualità del pensare, in una continua e capillare evoluzione che si estende ad ogni aspetto dell'attività aziendale: dalla progettazione alla produzione, dal servizio all'assistenza, dalla logistica al marketing, dal supporto ai rivenditori alle consegne, ogni giorno e in ogni parte del mondo. Per Stefanplast la qualità è un'abitudine. È il nostro lavoro.

Every day we are committed to improving our production standards and our efficiency, and to making long-lasting and superior quality items. But what is distinguishing is the quality of our ideas, in a continuous and widespread development that involves every aspect of company life: from design to production, from service to after sales care, from logistics to marketing, from dealer support to deliveries, every day and to all regions of the world. For Stefanplast quality is an attitude. It's our job.

Stefanplast goes green

L'approccio ecologico Stefanplast è globale e tocca tutte le fasi della filiera progettuale e produttiva. Utilizziamo materiali durevoli nel tempo e completamente smaltibili, in ogni loro parte, alla fine del ciclo di vita del prodotto. Imballi e packaging sono riciclati e riciclabili. Recuperiamo oltre il 30% del materiale di scarto, sia post-produzione sia post-consumo; da tempo fa parte della conoscenza di vita di ognuno riconoscere un prodotto ecologico anche dai toni di colore eterogenei. Risparmiamo energia e riduciamo le emissioni di CO2 attraverso l'utilizzo di impianti fotovoltaici, sfruttiamo tutta la luce naturale e abbiamo macchine ad iniezione a basso consumo energetico, con una logistica ottimizzata per ridurre la movimentazione esterna ed interna delle merci.

Stefanplast's ecological approach is global and comes into every stage of the design and production chain. We use long-lasting materials that can be disposed of in every single part at the end of the product's life cycle. Our packaging is recycled and can be further recycled. We recover over 30% of the waste materials, both post-production and after use; for quite some time now, everyone is becoming accustomed to recognise an environmentally friendly product also from its heterogeneous colour. We save energy and reduce CO2 emissions by means of photovoltaic panels, we take advantage of natural light and use injection moulding machinery with low energy consumption, combined with optimised logistics to cut down external and internal goods handling.

Linea Pulizia

Hygiene Line

La ricca gamma di articoli della linea pulizia offre soluzioni per ogni necessità della casa. La famiglia di Superbacinelle con manici, belle da vedere e funzionali da utilizzare, è proprio "super" grazie al particolare accorgimento tecnico che consente sia la scomparsa del doppio manico con inserto ergonomico antiscivolo che una presa comoda e sicura anche in casi di pieno carico lasciando libera l'altra mano.

The wide range of items in the Hygiene line includes special products for every household need. The series of Super-basin with handles, attractive in appearance and practical to use, really is "super" thanks to the special technical device that allows for the double handles to fold away. The handles themselves have an ergonomic anti-slip grip which is comfortable and safe even when the bowl is full and can be held in one hand, leaving the other free.

Die breite Produktpalette der Linie PULIZIA (Reinigung) bietet für alle Bedürfnisse des Haushalts eine Lösung. Die Serie der Schüsseln mit Henkeln, schön im Design und zweckmäßig in der Handhabung, ist wirklich "super" - dank des besonderen technischen Kniffs, der sowohl den Doppelgriff mit der ergonomischen Einlage aus rutschfestem Material verschwinden lässt, als auch einen bequemen und sicheren Halt ermöglicht. Selbst wenn die Schüsseln voll sind, bleibt somit die andere Hand frei.

La richesse de la gamme d'articles de la ligne pour l'entretien offre des solutions qui répondent à toutes les nécessités de la maison. La famille des « Supercuvettes » munies de poignées, belles à voir et pratiques à utiliser, est vraiment « super ». Une solution technique spéciale permet en effet de faire disparaître la double poignée grâce à un dispositif ergonomique adhérent qui garantit une prise commode et sûre même en cas de remplissage à ras bord en laissant l'autre main libre.

La ricca gama de artículos de la línea limpieza ofrece soluciones para todas y cada una de las necesidades de la casa. La familia de Superpalanganas con asas, bellas y funcionales, es específicamente "super" gracias a su especial diseño técnico que permite tanto la ocultación de la doble asa con inserción ergonómica antideslizante como un agarre cómodo y seguro, incluso en casos de plena carga permitiendo que la otra mano quede libre.

Da non dimenticare articoli come scolapasta, scolaposate, ciotole, contenitori per alimenti, che per la loro praticità di utilizzo sono i compagni quotidiani di chi si occupa di pranzo e cena.

Designed to take on the everyday needs in the kitchen, this line offers a range of articles which put together good looks and vivacity with practicality: from the trolleys for storing objects and foodstuffs, to the bottle racks and bottle mini-bars for making a cellar for connoisseurs or for organizing better bottled drinks. Then we mustn't forget articles like colanders, cutlery (flatware) drainers, bowls, foodstuff containers which, because of their ease of use, are the ideal companions for whoever in the house looks after lunch or dinner.

Die Auswahl an Artikeln, bei denen die Schönheit und Lebendigkeit sich mit der Zweckmäßigkeit vereinen, wurde entworfen, um die täglichen Bedürfnisse zu bewältigen: vom Rollwagen zum Aufbewahren von Gegenständen und Lebensmitteln bis zum Weingestell und Minibar-Flaschengestell, um einen kleinen Weinkeller von Kennern zu schaffen oder Flaschen und Getränke besser zu organisieren. Nicht fehlen dürfen Artikel wie Nudelsieb, Besteckkorb, Schüsseln, Lebensmittelbehälter, die neben ihrem zweckmäßigen Gebrauch auch alltägliche Begleiter für alle, die sich dem Mittag- und Abendessen widmen, sind.

Conçue pour répondre aux besoins de la vie de tous les jours, cette gamme propose une série d'articles qui allient l'esthétique et la vivacité à la praticité : des chariots pour ranger les objets et les aliments aux frigos à vins et aux minibars, pour qui souhaite créer une petite cave de connaisseurs ou ranger les bouteilles de boisson comme il se doit. Sans oublier les articles tels que passoire, égouttoir à couverts, bols et récipients alimentaires qui, grâce à leur caractère ergonomique, seront les alliés quotidiens de ceux qui préparent les repas.

Pensada para afrontar las necesidades diarias, presenta una gama de artículos que combinan la belleza y el colorido con el carácter práctico: desde los carritos para guardar objetos y productos alimenticios, a las bodeguitas y minibar para recrear una pequeña bodega de expertos o para organizar mejor las botellas de las bebidas. Sin olvidar artículos como el escurridor de pasta, el escurridor para cubiertos, los cuencos, los recipientes para alimentos, que por su practicidad de uso son los compañeros cotidianos de quien se ocupa del almuerzo y de la cena.

Linea Bagno

Bathroom Line

Riordinare significa saper organizzare lo spazio in modo funzionale, senza penalizzare l'estetica dell'ambiente. La linea bagno di Stefanplast è pensata proprio per questo: anche oggetti come il portabiancheria, la pattumiera da bagno, gli sgabelli diventano complementi d'arredo, che abbelliscono le stanze con i loro colori vivi ed il ricercato design. Sono prodotti in materiale plastico resistente e sono dotati di rifiniture particolarmente curate.

Keeping things tidy means knowing how to organize available space in a functional way without compromising the looks of a setting. The Stefanplast BATHROOM LINE has been thought out with exactly this in mind; even objects like the laundry hamper, the pedal bin, the stool become furnishing accessories which embellish rooms with their lively colours and careful design. All products are in tough plastic material with particular attention being paid to their finish.

Ordnung machen bedeutet, den Platz funktionsgerecht zu organisieren, ohne dabei die Schönheit des Ambientes zu vernachlässigen. Die Linie BAGNO (Bad) von Stefanplast wurde genau dafür geschaffen. Selbst Gegenstände wie Wäschebehälter, Badmülleimer, Badehocker zu Ergänzungen der Einrichtung und verschönern die Räume mit ihren lebendigen Farben und dem auserlesenen Design. Diese Erzeugnisse aus widerstandsfähigem Plastikmaterial sind zudem mit besonders ausgefeilten Details ausgestattet.

Ranger signifie savoir organiser l'espace de façon fonctionnelle, sans pénaliser pour autant l'esthétique de la pièce. C'est sur ce principe qu'a été conçue notre ligne pour salle de bains Stefanplast : même des objets tels que le panier à linge, la corbeille à papier, l'escabeau deviennent des accessoires de décoration qui embellissent les pièces grâce à leurs couleurs vives et leur design recherché. Ces produits sont réalisés en matière plastique résistante avec des finitions particulièrement soignées.

Reordenar significa saber organizar el espacio de manera funcional, sin sacrificar la estética del entorno. La línea baño de Stefanplast ha sido especialmente diseñada para ello: objetos como el cubo de la ropa, la papelera de baño, los taburetes se convierten en complementos decorativos que embellecen los cuartos de baño con sus vivos colores y su sofisticado diseño. Son productos de material plástico resistente con unos acabados altamente elaborados.
